REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest a device for removing an intravascular filter including an outer shaft having a distal sheath extending distally thereof, a dilator tip slidably disposed along a filter wire at least partially distally of the sheath, and a spring coil disposed along the filter wire proximal of the dilator tip biasing the tip towards the distal end of the sheath. Also not disclosed is the above device in combination with a filter disposed proximally of the distal end of the wire.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
